Wholesale clients decreased by 0.8% quarterly, from \$26.1b to \$25.9b, however recorded an annual increase of 2.4%

About the Managed Funds Survey (QMFS & AMFS)

All figures in this report are drawn from the Quarterly Managed Funds Survey and the Annual Managed Funds Survey, which covers Managed Funds with:

- Total funds under management \$1+ billion. (QMFS)
- Funds under \$1 billion are collected annually at the end of quarter 1. (AMFS)

The QMFS covers 37 funds who make up approximately 97% of the total funds managed in New Zealand. The annual survey attempts to cover the remaining 3%, surveying 30 small funds. Annual respondents are surveyed in Q1 of every year. This data is then used to impute the data for Q2, Q3 and Q4. For the purposes of this survey, we do not include ACC and the NZ Super Fund as these are government providers of insurance and pensions and as such are not included as a part of household savings.
